

You're Not Alone

The foot and ankle joint is one of the most complex anatomical systems in the human body—consisting of 28 bones, 33 joints, over 100 ligaments, controlled by over 20 muscles that help move the foot and toes. The foot and ankle joint is also one of the most frequently injured. **Thousands of foot and ankle surgeries** are performed each year in the U.S.

We are committed to supporting your surgeon with the most advanced products **to help you recover faster and give you peace of mind.**

Your Safety Matters

After more than 900,000 procedures, there have been no reports of disease transmission or tissue rejection from birth tissue allografts produced by BioTissue Surgical or its family of companies.

Bounce Back Strong. Walk with Confidence.

Let birth tissue help support your journey to functional recovery.¹⁻³

Regenerate.
Restore.
Recover.

The Power of Healing as Mother Nature Intended

BioTissue products are made from donated birth tissue **that can help reduce inflammation and scarring while supporting faster, more complete healing.**³⁻⁶

When applied to your foot or ankle during surgery, these innovative human birth tissue-based products create a healing environment so that your body can heal itself.^{3,5,6}

Helping You Heal Faster and Get Back to Your Life

The BioTissue natural tissue-based therapies have been proven to help patients heal faster after Foot and Ankle surgery, with less inflammation, less discomfort, and shorter recovery.^{1,3,7}

Common to all these procedures is the need to heal your surgical site wound faster, minimize post-operative pain, restore range of motion, and get you back to the things you love to do as soon as possible.^{1-3,8}

Clarix® 1K birth tissue therapies help support your body's own natural healing.

At BioTissue,
We're Committed to Your
Recovery & Return to the
Life You Love

For over 39 years, our pioneering scientists have focused their research on the healing properties of human birth tissue to help improve patient recovery.

What This Can Mean for You

Less inflammation

Faster healing

Faster recovery

Where Does Our Birth Tissue Come From?

The birth tissue used in all BioTissue products is obtained through a voluntary donation program from live and healthy births. All birth mothers are screened to meet all safety guidelines and requirements of the Food & Drug Administration (FDA).
