

The Power of Healing as Mother Nature Intended

BioTissue products are made from donated birth tissue **that may help reduce inflammation and scarring while supporting faster, more complete healing.**³⁻⁶

Our game-changing therapies have been shown to create a healing environment, so that your body can repair and heal itself.³⁻⁶

“ This birth tissue can make a difference in patients' lives, and give them the best chance to heal successfully.

Christopher Stewart, MD

Trauma Surgeon

Specializing in Upper and Lower Extremity Injuries

Your Safety Matters

After more than 900,000 procedures, there have been no reports of disease transmission or tissue rejection from birth tissue allografts produced by BioTissue Surgical or its family of companies.

Return to the Life You Love After Traumatic Injury

Let birth tissue help support your journey to recovery.

Regenerate.
Restore.
Recover.

Helping You Heal Faster and Get Back to Your Life

You don't choose to have an accident, but you can choose your path to recovery. Traumatic wounds can occur suddenly and unexpectedly, causing significant damage to the skin and underlying tissue, muscles, and bone.

Your surgeon may suggest the use of human birth tissue Clarix® 1K, a natural regenerative therapy to help in your recovery.^{1,2} Clarix 1K helps you recover and heal faster.⁵ Our goal: getting you back to everyday living as soon as possible.

Clarix 1K birth tissue therapies help support your body's own natural healing.

At BioTissue,
We're Committed to Your
Recovery & Return to the
Life You Love

For over 39 years, our pioneering scientists have focused their research on the healing properties of human birth tissue to help improve patient recovery.

What This May Mean for You

Less scarring

Faster healing

Improved recovery

Where Does Our Birth Tissue Come From?

The birth tissue used in all BioTissue products is obtained through a voluntary donation program from live and healthy births. All birth mothers are screened to meet all safety guidelines and requirements of the Food & Drug Administration (FDA).

You're Not Alone

Each year, millions of Americans of all ages experience traumatic injuries. These wounds can be the result of falls, motor vehicle crashes, natural disasters, crush injuries, assaults or violence, animal bites, burns, or any serious injury to the skin and underlying tissue.⁶

Common to all patients with traumatic wounds is the need for healing the injured tissue, preventing complications, and restoring function and motion.

We are committed to supporting your surgeon with the most advanced products **to help you recover faster and give you peace of mind.**
